

THE OBJECT LESSONS CHANNEL!

Jesus Heals!

- For Pre-K age •

Main Point: Aimed at little kids, this object lesson is really just a fun activity that helps kids learn and remember that Jesus is special; in this case, Jesus healed people.

Bible Story Suggestion: A children's Bible version of Jesus healing the lame man by the pool (John 5:1-9), Jesus healing the man lowered through the roof (Luke 5:17-26) or the like.

Instructions: After the kids hear the Bible story, they "heal" injured stuffed animals. That is, with your help they wrap the arms and legs of stuffed animals with self-clinging bandage wrap as though the animals had broken or injured bones. At your signal the kids remove the wrappings. The animals are healed! All during this time you remind the kids that Jesus healed hurt people because He is God's Son from heaven who loves and cares for us.

Object Lesson: Jesus Heals!

Materials needed: Stuffed animals that the kids can wrap with the sort of self-clinging non-adhesive bandage shown here. See the demonstration video for complete details.

Activity Page: Jesus Loves Me Coloring Page

Hand out copies of the coloring page and let the kids scribble away.

Extra Fun: Teach the kids to sign "Jesus loves us." Jesus came from heaven to let us know that He loves us.

Like hugging yourself.

Point to one shoulder, then the other, thumb up.

Jesus loves me.
